Another way you can acquire Legion Points (and more) is to become a Legion Scout. Demonstrate the game to stores not currently stocking the Edadh range, run in-store demos, demo at conventions, run a tournament, run Organised Play, etc. Such actions are of great benefit to us and if you're willing to help then contact [comm@warriorelite.com](mailto:comm@warriorelite.com) for full details.

# ORGANISED PLAY FORMAT

Any style of game can be played as OP – unit vs. unit, best of 3, skirmish, etc. The OP Chapter – group – can decide amongst themselves the style of game to be played and this can change from week to week. The cost of armies is also determined by the OP Chapter and can also change from week to week.

Each player in each OP event will play 3 matches against 3 different opponents. Players accumulate points – 1 for a loss, 2 for a draw and 3 for a win. The player(s) with the most points at the end of the 3 matches win a Fire Moon Trophy Card. The number of Fire Moon Trophy Cards given out at any one OP event is limited by the number of participating players at the event -

No. of Players	No. of Fire Moon Trophy Cards
4	1
5 - 8	2
9 - 12	3

and so on.

If there are more winning players than available Fire Moon Trophy Cards then the following tie break is used.

After each match, each winning player works out the difference between his MP and Dmg Counters and to this adds the DV from each Troop Card he has remaining in his Unit – i.e. that hasn't been Discarded. These totals from each of the player's 3 matches are added together and are then used in a tie break situation with the players with the highest values winning over players with lower values.

# ORGANISED PLAY CHALLENGES

You can challenge another player to a one on one duel outside of Organised Play but in order for the challenge to be valid there must be an authorised Overseer present. You can acquire points by playing a challenge match and if you beat a player who has more Trophy Cards than you – or higher Level Trophy Cards – then you will gain bonus points. These points go towards obtaining your Trophy Cards. A player gains 1 point for losing a Challenge, 2 points for a draw and 3 for a win. A player can gain the following bonus points -

If opponent has...	The winner gains...
Higher Level Trophy Cards	1
More Trophy Cards of the same Level	1
More Fire Moon Trophy Cards	1

Any player can challenge any other player. A player must accept a minimum of 1 Challenge a month – if he is challenged. If several players are gunning for the same opponent then the Overseer ensures that each player will get their shot over a period of time.

# ORGANISED PLAY PREREQUISITES

In order to compete for Trophy Cards from a given expansion you must have at least one deck from the relevant expansion.

# USING TROPHY CARDS IN GAMES

Trophy Cards *can* be used in games if both players agree to it but are *mandatory* in Challenges – see above. Before a game starts the players compare the Trophy Cards that they have.

- If a player has one or more Trophy Cards of a higher Level than his opponent, he places 1 of each of these higher Level Trophy Cards with his army.
- If both players have Trophy Cards of the same Level(s) but one player has more of the highest Level that they both have, he places 1 of these Trophy Cards with his army
- If a player has more Fire Moon Trophy Cards than his opponent he places 1 of these with his army

During the game a player who has a Trophy Card with his army can use that Trophy Card to have any single round replayed. Once both players have placed their Mastery Cards, the player can announce that the round is going to be replayed. This player removes a Trophy Card from play and the laid Mastery Cards are picked up and the round is begun anew.

## YOUR TALES OF BATTLE BECOME THE LEGENDS OF EDADH

As well as competing for Trophy Cards and the glory of winning, your Organised Play games will impact the world of Edadh. With the release of 'Edadh Campaigns' your Organised Play group will be allocated a region of Edadh that your battles will be fought over. Each warring faction will fight for dominance of the region and it will be your games that will determine the side that rises to power. Your influence can also reach beyond the boundaries of your group's region to affect the battles in the regions surrounding you.

Full details will be made available with the release of 'Edadh Campaigns' and at that point, those groups already conducting Organised Play will get first choice of region, etc.
